

How green is your street?

2018-06-12

A collaboration led by the Office for National Statistics (ONS) Visual team which uses vegetation index data produced by the Mapping the urban forest project to produce a data journalism and visualisation output. The short-term project will explore novel ways to visualise the dataset in an engaging and accessible way.

Team members

- Phil Stubbings
- Joe Peskett
- ONS Visual team

The need

To produce more widely accessible outputs for the Urban Forest Project.

Impact

We hope to share this work with a larger audience.

Data science

This project makes use of cutting-edge visualisation tools and techniques. The current prototype makes use of deck.gl.

Stakeholders

- Data Science Campus
- ONS Visual

Code and outputs

The work will be published on the ONS site and we hope to open source the visualisation code.

Related and existing work

- Mapping the urban forest

Delivery

- **September 2018** Project started with 4 day sprint.
- **Future** Publish
